

What's on in Chemistry (CEICS community and allies)

Friday, 11 Nov

Where: [ICIQ, Institute of Chemical Research of Catalonia](#)

8:30-9:00: **Accreditation**

9:00- 9:15: **Welcome**

Carmen Claver, Prof. Dr. in Inorganic Chemistry at the Rovira i Virgili university, Scientific Director CTQC, Forum CEICS-Chemistry and Energy coordination.

9:15-10:45: **“Highlights in CEICS Research and Innovation in Chemistry and Energy (I)”**

General overview of research lines of each department, by the responsible, and presentation of one specific research project, by a senior researcher.

Department of Chemical Engineering

Ioanis Katakis. Head of Department.

Gonzalo Guillén: “Overview of research lines on sustainable chemical processes in the Department of Chemical Engineering”

Department of Inorganic and Physical Chemistry

Josep M^a Poblet, Head of Department.

Francesc Díaz: **“Materials and Energy at URV”**

Department of Analytical Chemistry and Organic Chemistry

Eva Pocurull. Head of Department.

Marina Galià: **“Polymers from vegetable oils as renewable resources”**

CTQC (Chemistry Technology Centre of Catalonia)

Fernando Torres, CTQC director

Pablo Ramos: **“Citizen Participation Project, voluntary reporting system for monitoring odor episodes in Tarragona”**

10:45-11:15: **Coffee break**

11:15 – 13:45: **“Highlights in CEICS Research and Innovation in Chemistry and Energy (II)”**

General overview of research lines of each research institute / technological centre / company, by the director, and presentation of one specific research project by a senior researcher.

ICIQ (The Institute of Chemical Research of Catalonia)

Miquel Pericás. ICIQ Director.

Emilio Palomares: **“Chemistry for Energy: Materials Interacting with Light”**

Innovation Hub Project

Francisco Andrade: **“Innovation Hubs: bridging the gap between technology and innovation”**

IREC (The Catalonia Institute for Energy Research)

Antoni Martínez. IREC Director. **“Zèfir Test Station”**

Joan Salvadó: **“Bioenergy and Biofuels”**

Department on Mechanical Engineering.

Joan Manel Vallés, Head of Department.

Alberto Coronas: **“Research on advanced heat. Conversion Systems for power and refrigeration”**

Department of Electronic Engineering

Enric Vidal.

Lluís Marsal. **“Organic and Hybrid Photovoltaic Devices for Renewable Energy”**

13:45-15:30: **Lunch**
